The Honorable Frank J. Lausche  
United States Senate  
Washington 25, D. C.

Dear Senator Lausche:

We have been informed by Mr. Frantisek Vohryzka, an employee of Radio Free Europe (a Division of the Free Europe Committee) that you have indicated an interest in helping him to secure United States citizenship.

Mr. Vohryzka has been employed by Radio Free Europe since April 1951. He is known to us to be a man of high character and unquestioned devotion to the aims of Radio Free Europe and the democratic way of life. Mr. Vohryzka's case is typical of that of a number of exile employees at Radio Free Europe who, though they have begun immigration proceedings and hold United States Re-Entry Permits, have not been able to meet the residence requirements for citizenship because of our need for their services in Europe.

Very truly yours,

Chester W. Ott  
Acting Director
